Unlocking the mysteries of this abandoned relic is one thing; surviving the horrors it hides is something else entirely. Don rated it really liked it Dec 11, They are not human. Susan Gillespie rated it liked it Jul 09, August Morrison faces it after rising from the depths of a dark matter research facility in Arizona. The survivors find themselves stranded in the middle of nowhere on an island that's being ripped apart from the inside out, desperately trying to reach the lone settlement on the far . The story begins in the ocean and on a volcanic island. Michael McBride is an author that certainly doesn't "skimp" when it comes to doing his research!
