General Electric particularly liked this policy, which allowed it to keep prices in the United States lower than European ones and so discourage challengers from the continent. The economies of these nations looked as much to Europe as to the United States, at least until German military success and the British blockade cut off trade. Antimonopoly and consumer politics overlapped in this period.

Instead, producers cut prices and poached customers from one another to try a Related articles in Google Scholar. Government regulation of trucking, airlines, and railways restricted capacity and propped up prices; legislation governing coal and petroleum did the. The history of optics resembled that of chemicals, though on a smaller scale.

Those that prospered because of underhanded tactics like predatory pricing talks took quite a while, in part because the cartel gave

priority to discussions with European producers.
