Many of the signs that an angry fox will give off are similar to those used by dogs. They will eat fish, amphibians, garbage, and pet food among other things.

Let the trap sit out overnight. Foxes can chew through and break thin wire. Place bait outside the trap and allow the fox to take it. I know we are going to have to do some more work on our outdoor area and I don't know if I will ever let them totally free range like they .

In addition, they may carry parasites like fleas or ticks especially cat fleas. Contact a professional. Wild foxes cannot be kept as pets, it's best to observe them from afar and leave them be in the wild.
