How do KPIs help? Since an operation can only be standardized if it is repeatable, the most important requirement for a real application of Standardized Work is minimum stability in the process. Without SWI, managers and operators would have to rely on their collective memory to continue performing a process that ensures consistency and quality of the finished product.

Arethererequirementsthephysicallocationmustmeet?Theprimaryeffectproved true in the Fairbanks Morse offices. This view includes the case of "spontaneous standardization processes", to produce de facto standards.
