Page 1 of 1 Start over Page 1 of 1. Their blades were hand ground from carbon steel and heat treated and left unsharpened. You must be a registered user to use the IMDb rating plugin. This section possibly contains original research. Retrieved 30 April First, they drew muscular warriors in ghostly forms onto cels and printed the images onto film with an Oxberry animation stand and contact printer. Controlled by steel cables and hydraulics, the snake could exert a force between Oxberry was fitted with a Conan the Barbarian lens that introduced lens flares to the prints; VCE's intention with using the old lens was to make Conan the Barbarian resultant images of the ghosts seem as if they were of real-life objects filmed with a camera. Their first attempt—filming strips of film emulsion suspended in a vat of a viscous solution—elicited complaints from the producers, who thought the resulting spirits looked too much like those in a scene from Raiders of the Lost Ark so VCE turned to animation to complete the task.
