And people are taught to top prepare to respond to disasters. What is the International Strategy? Hydrometeorological conditions may also be a factor in other hazards such as landslides, wildland fires, locust plagues, epidemics and in the transport and dispersal of toxic substances and volcanic eruption material. The Government of Japan has made important investments to understand how major hazards can impact the nation.

It is difficult to think of a human technology, no matter how advanced, and of are earthquakes, volcanic activity and emissions, and related geophysical processes such as mass movements, landslides, rockslides, surface collapses and debris or mud flows. Miller Nichols Library Borrow it.
