His arrival pepped up the party. He defeated his enemy. But who made up this literate public, and what percentage of Spain's population did they form in the Golden Age? If any conclusions can be drawn from this evidence, they would seem to be as follows. This book is not yet featured on Listopia. The only figures on which we can base estimates of literacy in Golden-Age Spain involve signatures in parish registers, and these are scarce because the priest generally did the signing. So much noise rattles me. They revived the fire by putting on more wood. All of a sudden they stopped talking.
