For while scenes themselves might not seem to be oriented directly towards the process of capital accumulation, members of music scenes are invariably involved in various forms of labour which arguably contribute to the overall production of value both by the music industry and capitalism more generally. It has been commonplace since the Creative Crisis in Democracy and Economy of the s to observe that the revolution in digital recording and distribution has enabled small-scale organisations and even individual producers and musicians to bypass the traditional power-centres, recording and distributing their own musics much more effectively than was previously possible.
